

The first Smart Home for birds.

< Actual image from The Peep Show.

We've got birds on our brain.

- *Stream HD video directly from The Peep Show to your smart phone or tablet.*
- *Receive alerts on your phone when there is nesting activity.*
- *Our patent-pending, endlessly-adaptable, quickchange camera mount, turns your Smart Home camera into a nature camera in just seconds.*
- *The Peep Show nesting box features an elevated nesting platform, customizable wood panels and versatile options for mounting.*

DESIGNED FOR DEMANDING BIRDS

From real wood panels to an elevated dry nesting bed, we have set out to design the most thoughtful bird home possible.

DESIGNED BY CARING ENTHUSIASTS

Following stringent ornithological guidelines, The Peep Show is scientifically designed to give baby birds the best start in life.

DESIGNED FOR MOTHER NATURE

What's good for the planet is good for the birds.

That's why we use greener materials, an eco-conscious design, bio-plastics and wood certified by the Forest Stewardship Council.®

The Peep Show name is a registered trademark of the Urban Bird, LLC. The patent pending design is registered with the USPTO.

Technology meets Mother Nature.

With its innovative, patent-pending design, The Peep Show allows everyone a 'peep' into the seldom seen—and endlessly fascinating—world of birds. From nest construction to feeding behavior, The Peep Show turns your Smart Home camera into a nature camera.

VERSATILE CAMERA MOUNT

The endlessly adaptable camera mount integrates with popular Smart Home cameras, allowing you to turn your security camera into a nature camera in seconds. So innovative, it is patent pending.

INTEGRATED VENT HOLES

Front-to-back ventilation allows air to circulate, creating a cooler and dryer home.

CUSTOMIZABLE REAL WOOD PANELS

Give The Peep Show its own unique personality with optional wood panels in a variety of species and textures. Customize in minutes with no tools required.

INTEGRATED CLIMBING WALL

Textured side walls, combined with real wood panels, help chicks make it safely out.

ELEVATED NESTING PLATFORM

Bird experts agree, elevated nests create a healthier environment for nestlings.

DRAIN HOLES

Help keep the nest comfy and dry.

EASY INSTALLATION

Easily mounts to 1.25" poles or use with our optional wall mount.
